DR. ABORN,
From San Francisco,
Now Professionally at the
St. Charles Hotel
PORTLAND, OREGON.
EVIDENCES OF HIS SUCCESS IN CURING
CATARRH,
And other Chronic Diseases that have Resisted the Ordinary Modes of Treatment.

Letter from B. F. Murdock, Esq., Editor of the San Jose Daily Patriot.
SAN FRANCISCO, CAL., NEW YEAR'S DAY, 1871.
DR. ABORN, San Francisco—Dear Sir: I have felt that our business and social relations for the last ten months were of such a character as to warrant me in addressing you this testimonial of my esteem for you, professionally and socially. Your remarkable success in the treatment of my son, Frank, a youth just entering on manhood, who had been afflicted for some time with and obstinate catarrh and throat disease, was but an additional proof of the distinguished reputation you had achieved in your profession before your arrival to California, and disposed me to repose that reliance upon your scientific skill in the treatment of your specialties, which was so fully sustained by the success of our prescriptions in all cases under your treatment in this city and neighborhood.
Allow me, also, to express my thanks for the liberal and gentlemanly spirit you displayed in all of our business relations. As the proprietor of the San Jose *Daily Patriot*, I published for you many advertisements, all of which were promptly paid for, and in a manner peculiarly agreeable.
I do not know whether this letter will be of any use to you, but I have felt impelled to write it, as well as to assure you of my sincere esteem and cordial wishes for your happiness and prosperity.
Respectfully yours, etc.,
F. B. MURDOCK,
Editor and Proprietor *San Jose Daily Patriot*.

Letter from Wm. B. Lake, Esq.
SAN FRANCISCO, January 10, 1871.
DR. ABORN—Dear Sir: Permit me to add my testimony to the numerous public assurances you have received while here, of your skill and success in the treatment of those diseases which you make specialties in your practice.
My boy, now eleven years of age, had been seriously troubled for several years with catarrh, when put under your treatment; when he was immediately relieved, and has been steadily improving ever since, until now he seems almost entirely recovered, and we feel we owe to your skill his rapid convalescence, and I assure you your name will ever be held in grateful remembrance by your young patient, and his parents and friends.
Yours respectfully,
WM. B. LAKE,
No. 102½ Hyde Street, San Francisco.

LAW OFFICE OF R. P. & JAMES CAMPBELL,
No. 51 Exchange Building,
SAN FRANCISCO, CAL., JANUARY 22, 1871.
DR. ABORN—Dear Sir: Understanding that you are about terminating your residence and practice in this city, I have thought that possibly you might be pleased to know that the little school girl, Mary Morris, whom you treated some months ago at my request, and who, you will remember, was nearly deaf and seriously afflicted with some bronchial trouble which also went to you, is now ENTIRELY CURED, both of deafness and bronchial affection, and declares that she was virtually cured on her first visit to you. She and her parents are very grateful to you, and think that it is wholly due to your skill that her hearing and health are restored.
Yours truly, R. P. CLEMENT.

Card from Charles N. Fox, Esq.
[Office of Campbell, Fox & Campbell, Attorneys and Counselors at Law, No. 528 California street.]
SAN FRANCISCO, Feb. 17th, 1872.
Were it not for the good which I hope it may have done to suffering humanity, by informing them where they could find relief, I should regret having given Dr. Aborn my little testimonial of the tenth of January, for the demands made upon my time, in answering inquiries in regard to him, have been more numerous than profitable to me; and still they come.
To save the necessity for further personal application, let me say to those who care for my opinion, that time has only strengthened my first favorable opinion of Dr. Aborn, and my confidence to the permanency of the cure effected by him. All my difficulty arose from catarrh, which had become of a serious character, affecting the hearing and the throat, giving me at times acute pains, and at others rumbling sounds in the ears, frequent headaches, and so seriously affecting the bronchial tubes as to sometimes disable me from public speaking. It is also gone, and the change was produced, not by any species of charlatanism, as many suspect of the Doctor, nor by the absurd practice of putting medicines into the stomach which was not affected, but by the skilful application of medicinal remedies directly to the parts which were diseased. I have found the Doctor a gentleman in his intercourse and business, and in the judgment that I have formed of him professionally is, that he is a regular physician, thoroughly acquainted with the anatomy of the human body, and possessing a remarkable degree of skill in the treatment of those diseases which he makes his specialty.
CHAS. N. FOX.

Another Wonderful Cure of Asthma and Bronchitis, after all other Methods had Failed.
SAN JOSE, March 6, 1870.
This is to certify, that I have been afflicted for over three years with Asthma and Bronchitis, and had tried every means in my power to effect a cure, and was told by my family physician (an honest and good doctor) that I could not be cured; and I became so weak that I could scarcely walk up a flight of stairs. I happened to see a card from Lawyer Hogbloom, stating that he was being treated by Dr. Aborn, No. 22 Kearny street, San Francisco, and was getting great relief, and I thought I would go and see the Doctor, but I had little hope of getting relief, much less a cure. That was about the fifteenth of January, 1870, and to-day I claim to be a well man. I am fifty-nine years old. My mother and sister died with the same disease. I sent the card, unsolicited, to Dr. Aborn, thinking that it might meet the eye of some of my acquaintances that might be suffering in the same way.
J. W. HARDWICK

DR. ABORN
HAS WONDERFUL SUCCESS in curing CHRONIC DISEASES after the usual routine of the profession have failed, and the many testimonials in his possession from prominent and influential men who are well known will substantiate my prove.

NO PAINFUL OPERATIONS.
DR. ABORN does not subject his patients to any painful or unpleasant operations; his treatment is mild, and safe for the most delicate child. The afflicted are hereby informed, that after the first visit, for many of the diseases which he makes a specialty, they can take the treatment home and use it until cured, without pain or interruption to their usual avocation.

DR. ABORN
ON
CATARRH!!
[DISEASE TENDING TO CONSUMPTION.]
This is a chronic affection of the mucous membrane of the nostrils or the throat, originating in irritation or inflammation, and attended by more or less discharge. It is one of the most common, most disgusting, and fatally most destructive of diseases incident to the variable climate of our northern latitude.
In its early stages catarrh calls to attract the patient's attention, so insidious is its approach. This is an unfortunate circumstance, because the most favorable period for treatment is thus unimproved, and because of the peculiar disposition of this disease to extend upward to the frontal sinuses, backward through the Eustachian tubes to the middle ears, and down, through the larynx, trachea, and bronchiæ, to the air cells of the lungs.
The discharge from the affected part is at first a clear fluid, which may escape observation, unless it chance to be of a more than usual acrid character. As time goes on this gives place to a fluid that is thicker, and of a yellowish green color, and still later this may be succeeded by thick flakes or scales.
In all the more advanced stages the discharges are generally of an offensive odor, causing great annoyance to one's friends and to the patient himself, while his sense of smell remains. This annoyance from the odor becomes almost beyond endurance, when, as sometimes happens, the delicate bones of the nose become diseased.
Some cases early assume the character of Dry Catarrh. There is then a feeling of an eminess, heat and stiffness in the nostrils, which are often (one or both of them) closed by thickening of the mucous membrane, and then a difficulty of breathing becomes a prominent symptom.
On examining the nostrils in Chronic Catarrh, with instruments specially adapted to that purpose, we find their lining membrane thickened and of a deeper color than in health. There are seen little points of ulceration, upon which the secretion becomes hardened and forms crusts. When these are picked off the diseased surface is irritated, and frequently bleeds profusely.
In each case of Catarrh the prominent symptoms are determined by the direction in which the disease extends. If the disease upward there may be pain over and between the eyes, obstruction of the lachrymal ducts, causing the tears to flow over the cheeks, and possibly ophthalmia—inflammation of the eyes. If backward, there will be thickening of the walls of the Eustachian tubes, and consequent tendency to their obstruction, inflammation of the middle ear, buzzing sounds in the head, and impairment of hearing. When the extension is downward, the voice becomes hoarse or whispering and unmanageable; cough comes on, with expectoration and emaciation, to be followed too often by Consumption and Death.
In cases where the bones of the nose become diseased, not only is the offensiveness of the breath increased, but there is a liability to serious personal deformities among which are flattening of the nose.
The swallowing of catarrhal secretions deranges the functions of the stomach, causing indigestion, and loss of appetite. Debility, paleness, lassitude, headache and disturbance of mind soon follow. In some instances the mental affection is one of irritability, the patient being suddenly annoyed by all the little perplexities of life. In others, the prominent feeling is that of the melancholy or depression of spirits, when the invalid can see no hope for himself or his affairs.
Allusion has been made to the extension of Catarrh by continuity of surface along the natural air passages to the substance of the lungs, thus causing Consumption and Death. In this connection it should also be remembered that the air which enters the lungs of a catarrhal patient is, every breath of it, poisoned by exhalations from the foul secretions of the diseased surface. By such air the blood cannot be properly purified and made fit to impart healthy vigor in its unending circuit to all and every part of the animal mechanism. One would suppose that this consideration alone would be sufficient to induce every person thus afflicted to make early application for relief.
The treatment of Catarrh is in part constitutional, whereby the energies of the whole system are called to aid in expelling its destructive enemy. It is in part local, whereby the discharge is made less offensive, diminished and finally arrested, and whereby the ulcerated surface is healed and restored to its normal condition.
By means of new and ingenious apparatus, Dr. Aborn is able to Catarrh and all other affections of the respiratory organs, to apply his remedies directly to the desired localities. Treatment is thus made more efficient as well as less disagreeable. In many cases the first application of the topical treatment will change the character of the disease and materially purify the breath.

A FEW REMARKS ON
DISEASES OF THE EAR.
It is a well known fact that Diseases of the Ear are among the most frequent and most tedious affections to which the human system is exposed, and that Deafness, or impairment of the hearing, is a lamentable misfortune, alike to the public instructor, the military officer, and the government official, on each is obliged to yield his position to another. Equally unfortunate is the loss of hearing to mothers, who have the moral correction of the speech of offspring; and to that offspring in after life, thus cut off from the principal source through which both moral training and intellectual development are conveyed. And yet this function of hearing—the most useful and pleasure-giving of all our senses—is frequently sacrificed by want of attention to the early symptoms of disease, when judicious treatment could readily affect a cure.
True, treatment is often deferred because there is no manifest pain, and hence no danger is anticipated; or because patients are taught by physicians to believe that their disease is not remediable; or, because this department of medicine has been neglected, and physicians, though skilled in other departments, know but little of aural surgery, and hence patients are generally discouraged by them.
In our increased and extended anatomical and physiological knowledge, all just grounds for want of confidence now have entirely ceased to exist, as no department in medical science is more thoroughly and successfully treated than is this branch by Dr Aborn.
The number of ear patients is constantly increasing with the increase of population, as they originate in so many diseases incident to childhood—as measles, scarlet fever, whooping cough, &c., &c.
The latter disease is particularly prone to give rise to affections of the ear. Among the most troublesome (besides impairment of hearing) is one called otorrhœa, "a running from the ear," not strictly a disease, but a symptom of a diseased condition, which often becomes exceedingly offensive.
If this discharge continues without limit, which it is prone to do, it is liable to destroy the "drum" and delicate ossicles of the ear, and finally to produce caries of the bony walls. The popular notion that stopping this discharge endangers other organs, or the life of the patient, should be corrected. There is far more peril in letting it alone than in curing it. While it continues, the discharge is a constant drain upon the constitution; but the health, on the contrary, is vastly improved by its eradication. Its persistence often indicates a scrofulous diathesis in the system.
Certainly, it is safe to change that morbid condition; to improve the general system; to remove the cause of disease, and the effect then ceases without danger. Nay, more: in the cure of otorrhœa, as in ozœna, or a "running from the nose," the consumptive tendency is also cured. Thus rational cure never substitutes one disease for another—never compromises the laws of life.
Now, in order to eradicate this common prejudice, and disprove the false conceptions of both patient and physician, I have repeatedly published, during a series of years, certificates of cures of deafness, and from persons of high social, clerical and political position, as to many indisputable facts of the success of my improved method of treating cases of ear disease, often of seemingly hopeless character.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO AUGUST 15.

BY ATLANTIC CABLE.

British Parliament.

LONDON, August 14.—There was a lively debate in the House of Commons this evening, on army matters. W. Henry Smith, member for Westminster, attacked the course of the Government in relation to the army.

Cardwell and Lord Northbrook defended the administration of the army, and spoke in opposition to a royal inquiry into the management. The subject was finally dropped without action on a motion to that effect by Smith.

Miscellaneous News.

LONDON, August 14.—The Queen is confined to her room. Physicians are in constant attendance. This sudden indisposition causes much anxiety in the royal household.

A dreadful calamity is reported in the small island of Tugolands, one of the Malay Archipelago, about fifteen miles northeast of the island of Celebus. The outburst of the volcano of Rowang was accompanied by a convulsion of the sea and a wave forty yards high. It swept all human beings, cattle and horses from the island. Four hundred and sixteen people perished.

The French Government is reported to have requested the extradition of the Communists who took refuge on British soil. The reply of the British Cabinet is said to be a decided refusal.

COPENHAGEN, August 14.—Stringent precautionary measures have been adopted and will be enforced by the Government to prevent the introduction of cholera into the country.

French Affairs.

VERSAILLES, August 14.—The defense of Gustav Courbet will be submitted to be dismissal to the effect that he is indebted the Commune for the purpose of endeavoring to effect a pacification between the members and Versailles authorities, and that by his personal exertions he saved many objects from destruction during the siege.

Dispatch from Berlin.

BERLIN, August 14.—The *National Zeitung* denies that the convention is closed for the evacuation of forts around Paris and depots of the Soine and Soine et Oise.

WASHINGTON CITY.

Loan Withdrawn.

WASHINGTON, August 14.—The Secretary of the Treasury to-day issued the following circular:

TREASURY DEPARTMENT, Washington, August 14.—Gentlemen: I have deemed it advisable on further consideration to withdraw the loan for the present from the market with the exception of the 5 per cent bonds (as offered to National Banks by circular letter of the Secretary of the Treasury, dated the 10th inst. This communication relates to 4 per cent and 4½ per cent bonds, in combination with 5 per cent. bonds.

Very respectfully,
GEO. S. BOUTWELL,
Secretary of the Treasury.

Arbiter and Counsel Confirmed.

WASHINGTON, August 14.—Minister Schenck telegraphs the appointment of Sir Alex Cockburn as Arbitrator at Geneva under the Treaty of Washington, and Rhoudell Palmer as Counsel.

It is now certainly known that Assistant Secretary Bancroft Davis will be agent of the United States. The British agent is not yet announced.

This Government has not yet appointed any Counsel. Charles C. Beaman of New York has been employed as assistant agent of the Tribunal of Arbitration.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 15.—The resolution of the Republican County Committee to prolong its term of office until after the September election by postponing the primaries until September 14th gives much dissatisfaction.

Two members of the Board of Supervisors, opposed to the Ring, being unavoidably absent last night, which would have enabled the Ring to carry through the Second street cut bill and the Montgomery street straight measure, Messrs. Storey, Bedlam and Fowler, therefore, voluntarily absented themselves. The lacking no quorum and the Board unable to transact business, it adjourned.

The Japanese Government has adopted a new coinage system, gold and silver now being the same standard as the American with the Y. N. corresponding with the American dollar for unit.

The body of the late Lieut. McKee, killed in Coreas, which arrived on the steamer *Japan*, will be escorted to the Oakland boat by troops from Presidio this afternoon and sent East for burial.

THE TERRITORIES.

The lumber mills at Discovery and also at Port Ludlow are only running on orders.

Farmers around Puget Sound are busy harvesting. Early sown wheat yields well.

Col. Crocker is forming a company to develop the coal mine on Puyallup creek, W. T.

The United States steamship *Lively* will be sold at auction at Port Townsend on August 21st.

The Seabeck lumber mill is running daily with a light stock of lumber and a large supply of logs.

Oysterville is full of Portlanders. Hotels are crowded. Mr. R. Caruthers is building a new house, but it is not quite ready. They have a yacht club organized, with the first annual regatta to take place July 4th. James Brewer and Philip Bird, charged with the murder of Cook at Steilacoom, were arrested, examined and bound over in the sum of $1,000.

BRITISH COLUMBIA.

Eggs are seventy-five cents per dozen in Victoria.

It is reported that several hundred men have left the Omineca mines, being literally starved out.

Owing to the smallness of the run on Frazier river the quantity of salmon canned will be quite light.

The schooner *Dominion*, with the B. C. Whaling Co.'s party, has taken five whales, two very large. Whales were scarce south of Eucletah rapids, but north of the rapids were very numerous.

The Gold Commissioners' report on the Omineca mines is published in the *Colonist*, from which we learn there are about 1,200 men at work in the mines. Provisions are scarce and sold at extravagant high rates. Mutton and beef are selling at sixty cents per pound. The mines are not developed sufficiently to form any reliable estimate as to the probable yield.

POLITICAL NOTES.

The Sacramento *Union* thinks that many names are on the registry of that city which do not belong there, the Democratic managers intending to have them voted on in the election.

It has been discovered that the New York Comptroller has over $1,000,000 in registered United States bonds. When the demagogues of Tammany blaze away to their unwashed audiences, hereafter, about the bloated bondholders, Honest Richard will be held up as an honest specimen of the animal. When he went into politics a few years ago, he was a bankrupt.

The Democrats of Ohio have begun the campaign, but the Republicans are yet engaged in perfecting arrangements for the convass. The 24th of August is fixed as their opening night, public meetings will be held at thirteen different places in the State, and nightly meetings will be held from that time till the election. The election of the State Republican ticket by twenty thousand majority is remarked as certain unless something new shall spring up to change the situation before the election. The great struggle will be for the Legislature, and that is considered doubtful.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

The Pittston Explosion.

PITTSTON, Pa., August 15.—It is difficult now to estimate the full damages done by the explosion. It is not believed that any men at work in the mine will be recovered alive. On entering the chamber in which the explosion occurred, fallen rock was found which laid partly on the car, completely blocking up one side and leaving space on the other just sufficient for a man to work himself through. Some distance further in there was another fall, which completely filled the passage. It is believed that the men are so completely walled in that it will take hours, or most persistent labor to reach them. Volunteers now at work are endeavoring to get around this fallen rock so that they can reach the miners, but the density of black damp prevents them from prosecuting the work with full effect. They are continually being brought up in a exhausted condition, but their places are at once supplied by other volunteers. All that mortals can do is being done to rescue the unfortunates, but only blackened disfigured remnants of mortality have thus far rewarded their labors. Outside, the scene is heart rending in the extreme. Women and children are weeping and mourning aloud for loved and lost, and waiting anxiously in hopeless expectation for each new report. This mine had been nearly exhausted and was known to be filled with black damp, but was considered safe and has been constantly worked since the strike, although not to its full capacity. Twelve feet of gas was found in the heading just off the gangway, which has been traversed all day by explorers with a masked light. An accident would have caused a worse explosion involving a loss of at least 50 lives. During the fore part of the night those assuming control have ordered the pumps to be reversed, and the water has been forced down the shaft, thus hoping to increase the volume of pure air and expel the foul. Superintendent Kondrick and Inspector Bliwitt are preparing to descend into the mine, but should they find their expectations of replenishing the avenue with pure air realized, they will hardly be able to draw away the debris necessary to reach the imprisoned miners before morning. Twenty miners are known to have been in the mine, but so far only five dead bodies have been found.

NEW YORK, August 15.—A gentleman just returned from Europe, where he has been in intimate social relations with the French Imperial family, informs an interviewer of a morning paper that Napoleon believes in his early restoration; that the government of Thiers is regarded as a mere make shift, and that his death at this time would be followed by another civil war. Gambetta is looked upon as an ambitious, intriguing, able man. Bazaine waits for history to justify him. The Empress is well, and intends to send the Prince Imperial on a tour through the United States when he is a little older. There are now two parties in France—Imperialists and Red Republicans; the fourth party is no where. European diplomatists abroad favor his return, believing that the restoration of Napoleon would keep in subjugation the disorderly elements in France which now menace Europe. He also stated that England is threatened with serious revolutionary troubles, and it was believed that conciliation by the Government would fail to satisfy the demands of the people.

LONDON, August 15.—A case of Asiatic cholera has appeared in London, and creates an extraordinary sensation.

Dispatches from Berlin say the cholera is increasing in Konigsberg, but no cases are yet reported in Dantzic.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 15.—Republicans, who can not administer George H. Gotham, are very much dissatisfied with his canvassing the State for the Republican ticket, and openly avow their intention to bolt the ticket, declaring that it is the old fight of four years since renewed. Two or three prominent men are included in this list.

There is little betting going on, the Democrats generally insisting upon odds or on a given majority being named for Booth. A few bets have been made even, but only a few.

Friends of H. Schwarz, President of the Stock Brewery Association, who suicided last night at North Beach, with a razor, think that he was insane when he committed the act. The reports that pecuniary or family troubles were the cause, are unfounded.

The California Insurance Co. has declared a scrip dividend to all policy holders, on business of the last fourteen months. This is the first dividend declared.

The Raymond Ely Mining Co. has declared a dividend of $1 per share.

There was an unusual amount of trading in Ophir stock on the street yesterday, in anticipation of a heavy rise. Many parties were bitten.

SAN FRANCISCO, August 15.—Arrived, ship *Bristolian*, Bristol, England, railroad iron to Faulkner, Bull & Co.

McCarthy, the soldier stabbed in a saloon on Kearney street by the notorious George Carlisle, died this afternoon. The saloon keeper, who was supposed to be more seriously injured is still living. The charge of murder is entered against Carlisle.

Geo. W. Randell petitioned in bankruptcy that he has 113 creditors.

An alleged attempt to bribe Deputy Sheriff Boyd to place certain persons, whose names were handed him, on the jury in the case of Friedman & McKay, involving land worth $50,000, tried in the First District Court last week, will be taken before the Grand Jury. It is alleged that Sam'l Neal, clerk for Geo. S. Sharp, who is associated with Wm. H. Patterson as counsel for defense, offered Boyd $440 and actually put it into his pocket to have the names drawn, and that Boyd informed Judge Dwindle and plaintiff's counsel of the proposition, and in the presence of witnesses returned the money to Neal. The affair is creating quite an excitement among lawyers.

The attendance at the Fair to-day and evening is greater than any other day, except Saturday. The success of the exhibition, pecuniary and otherwise, is now assured. Many people from the east and Europe are visiting the pavilion, and Japanese and Chinese are attending daily in considerable numbers.

SAN FRANCISCO, August 16.—The Scott centenary banquet at the Grand Hotel this evening, was attended by about one hundred gentlemen.

A dispatch from Col. Von Schmidt says the initial points for the Lake Tahoe Tunnel, on both sides, was agreed upon between himself and the engineer for the Central Pacific. A party of carpenters go up to-morrow to Summit Station to erect winter quarters for the working parties on both sides of the mountain.

Messrs. Sharp and Patterson state that Neal, who is alleged to have attempted to bribe the Deputy Sheriff in the land case, is not in their employ as has been stated; on the contrary, being employed on the other side of the case.

The Republicans take their turn to-morrow evening, Gorham, Edgerton and Rollins being announced to speak.

PLACERVILLE, August 15.—The mutilated remains of a man, supposed to be Ferdinand Kline, better known as '49, were found near Louisville, Kelsey township, this morning. He had been missing several days. Hogs had torn the body to pieces.

STOCKTON, August 15.—By to-morrow evening the track of the Stockton and Visalia Railroad will be laid to the town of Farmington, five miles from Peters.

Last night a colored boy, aged nine years, named Sanderson, fell into Mormon slough and was drowned.

VISALIA, August 15.—A man named Reeves, living in the outskirts of town, was dangerously wounded by the accidental discharge of his own pistol. He was called out of bed about midnight by some unknown person wishing to see him. Arming himself with a revolver he went out, when the pistol becoming entangled in his clothes was discharged. The ball passed through the hip and the parties wishing to see him disappeared.

Joe Churchill, a horse thief, who escaped from Stockton, was arrested here last night, and placed in jail.

Large fires are raging among the timber in the mountains northeast of here.

LOS ANGELES, August 15.—The largest political gathering ever known in Los Angeles county is now assembled in front of the Lafayette hotel, listening to a speech by Hon. Horace Maynard, of Tennessee, to be followed by Romualdo Pacheco, Republican nominee for Lieutenant-Governor; Hon. S. O. Houghton, Congressional nominee; Hon. Jesse O. Goodwin and Spivallo, delegates from Anaheim; Los Nietos, El Monte, Galasin, Wilmington and other towns.

Sixty thousand dollars was subscribed at the public meeting in Gallatin toward the purchase of the opposition steamer.

WEDNESDAY MORNING, AUGUST 16, 1871.

Our Tea Trade.

What city will be the great distributing mart for the tea trade of the United States has been, and is still being, discussed with great vigor by the press at the East and one or two of the leading commercial papers in San Francisco. Our San Francisco contemporaries have, so far, the best of the argument in actual results. There are two axioms which are generally observed in business circles, and they are—Virtually, time is life; financially, time is money. The prestige of New York, acquired by the enterprise and capital of her merchants, must eventually, if not already, yield to San Francisco, which in turn must, beyond a doubt, yield to us upon the above axioms. The New York merchant this year, who invested $100,000 in a cargo of tea, to come by sail via Cape of Good Hope, finds that, before his teas arrive, the market is supplied by finer qualities imported direct by steamers and rail, which left China and Japan from sixty to ninety days after his left. He also discovers that he might have turned his capital over several times instead of once; that he has not only lost three or four months interest, but also the control of the market; as that is taken by more energetic and enterprising operators who have supplanted him with a finer, fresher, more aromatic and better conditioned teas. This not only stands good in tea, but also in Central American coffee, as we tired of shipments made East every week of that brand of coffee. The great change that is brought about is, that St. Louis, Chicago and Cincinnati are purchasing all their teas and all of their Central American coffee, wanted to supply the markets in the Southern and Eastern States, in San Francisco, instead of purchasing their tea and buying the Brazil coffee, as heretofore,—giving the Central American the preference,—in New York. Now, if such benefits are being derived by San Francisco, by direct steam communication with supply ports, and rail connection with the East, is it not reasonable to suppose our town will come next. Soon the Northern Pacific Railroad will be built; and then there is another company organized to connect with the continental railroad at Salt Lake. The time in transit from China and Japan, in favor of Portland over San Francisco, is several days, and the distance across the continent is less, which will give us at least from half to three-quarters of a day in our favor. Our merchants, as a general thing, are rich and keenly alive to every business enterprise calculated to return a handsome profit. Already we have direct sail communication with supply ports for tea, and when the continental railroad or railroads are near completion we will have direct steam communication, as it is not only to our interest, but will be of great advantage to the railroad companies running here, who will without a doubt aid in the undertaking.

The French Government, after a great deal of discussion on the subject, decided to send the twenty thousand Communist prisoners kept in the stables at Satory and galleries of Orangerie at Versailles to New Caledonia. This disposition of the Communists does not altogether meet the approbation of England, as apprehensions are expressed that in due course of time this seething mass of humanity will be thrown upon the Colonies of Queensland and New South Wales. The Australians have always been discontented at having the English transport sails so near her, and the French Government transporting the Communists so near will not lessen the feeling, but on the contrary, tend to heighten the dissatisfaction. New Caledonia came into the hands of France but a few years ago, and then in a manner which was never entirely satisfactory to the English, who considered themselves as having been outwitted and cheated in the matter. The island belonged to England by right of discovery in 1774, by Captain Cook. But to preserve this right it was necessary to make a permanent settlement, which they neglected doing. The French have always desired the island as offering peculiar inducements for a penal colony, and Admiral Despointes, some ten years ago, happening in that neighborhood, quietly raised the French flag and left some settlers to keep it waving; and thus, in spite of the surprise and indignant remonstrance of the English, the French remained masters of the field.

Several of the leading journals East are engaged in urging on the part of the leading cities sanitary measures to prevent the spread of cholera, provided it should be brought to this country. They claim for cholera that it is an infection, not a contagious disease, and with proper sanitary measures being adopted, its spread would be stopped. When the cholera visited our country many years ago, owing to our sanitary system, it was not marked with great destructiveness, and our sanitary precautions now are superior to then.

The Great German Republican Ratification Meeting in San Francisco.

The Republican ratification meeting held by our German citizens in San Francisco, at Platt's Hall, August 8th, was one of the most cheering and enthusiastic held thus far in the campaign. The hall was filled by fifteen hundred Germans, representing all classes, and it was evident that they were determined in their resolution to render all the aid they can, in September next, to wipe out Democratic misrule. Speeches were made by ex-Senator Williams of Oregon and Messrs. Cohnheim, Hillebrand and Marchwaldy. There was great enthusiasm. The following resolutions were adopted:

Whereas, We hold it to be not only the right but also the duty of every good citizen to take a live interest in the political affairs of his country, to watch over its rights and liberties, to see that the public offices are filled by honest and capable men, that the administration of the State be carried on as economically as possible; that existing evils be abolished; that the public lands be devoted to their advantage of the entire population and that they be given only to the actual settler; that the person of every citizen be protected; that we condemn slavery and slave labor in every form, and consider the same to be injurious to the future of the country. That we are opposed with all the power that is at our command to any and all sectarian influence in the political field. That we look upon the public school system as the cornerstone of our Republic, and that we are determined to have it brought to the highest degree of perfection without regard to religious sects and church denominations. And whereas, we are on the eve of an important election upon which will depend the fate of our State for the next four years; that two parties are in the field seeking the patronage of the voters, it is the duty of every citizen to examine the record of the past of either party, and to derive therefrom the necessary guarantees and conclusions for the future. That after careful investigation, we have arrived at the conclusion that the great Union Republican party is the party, which by its patriotic bearing during the late rebellion, has earned the acknowledgements and thanks of every good citizen, and that same party has by the adoption of its platform in Sacramento, given additional proofs of its willingness to respect the wishes of the people, and to identify itself with the spirit and progress of the times. And whereas, in nominating the irreproachable, honest, high-minded statesman, Newton Booth, for Governor, it has given the surest guarantee for the principles laid down in the platform being carried out honestly. And whereas, the Democratic party in its late records has demonstrated that it possesses neither patriotism nor honesty in principles; that it contains in its ranks domineering elements which are ranked in hostile array against the liberty and safety of the citizen; that in nominating H. H. Haight for Governor it has furnished renewed proof of the fact that its promises of economy, its principles and its "new departure" are devoid of honesty, inasmuch as H. H. Haight, who had previously to his election promised to administer the affairs of the State honestly and with economy, had in contradiction to his promises approved by his signature a large number of the most gigantic swindling bills, which had been passed by the most corrupt Legislature that our State was ever cursed with; while on the other hand he had not the courage to sign the bill repealing a part of intolerant Sunday law, and for the sake of office gives promises that he does not mean to fulfill; therefore be it

Resolved, That the German adopted citizens of California at large and of San Francisco in particular consider the Republican party as the party of the people and of progress, in and through which alone the freedom-loving and right thinking adopted American citizens of foreign birth may hope to see his ideas and principles carried out.

Resolved, That we adopt heartily the Republican State platform, and consider it a blessing to the people.

Resolved, That we hail with joy the Republican nominations; that we recognize in Newton Booth, the Republican candidate for Governor, an honest man, a friend of the people, and a patriotic statesman whom we may confidently intrust with the guidance of the "ship of State," and that we will employ all honest means to carry through the election of our candidates.

Resolved, That we are convinced that the Democratic party has departed from its former sound and popular principles and has gone over to the enemies of humanity and progress; that all secessionists and enemies to loyal order are to be found in its ranks and that it therefore does not deserve the confidence of the people.

Resolved, That we denounce as a falsehood the resolutions passed lately in one of the Democratic meetings, that the present Republican administration has sold arms and ammunition to the enemy of our fatherland. That on the contrary, all the hostile feelings and manifestations proceeded from the Democratic camp.

Resolved, That although we sympathize with the struggle of our brothers in the fatherland for liberty and independence, we are nevertheless attached with fervent affection and glowing patriotism to this, our adopted country, and are ready to sacrifice life and property for its welfare and glorification.

Resolved, That it is our firm determination to make every effort in the Republican party toward removing defects that may exist, and to keep that party itself constantly on a level with the spirit of the times.

Resolved, That we call upon and invite all German adopted citizens of California to cooperate and vote with us in the coming election, for the Republican ticket.

A California paper has this: There was a Democratic meeting at Auburn the other night, and Gov. Haight made a speech. A vote was taken on the up-train as follows: For Haight, 161; for Booth, 106. Coming back on the down-train another vote was taken; for Haight, 96; for Booth, 108. It thus appears that Haight's speech changed two votes over to Booth, while sixty-three of his original supporters got too drunk to get home.

We give the following from the Virginia *Enterprise* of August 8th, to show the confidence which is entertained by the people in Nevada that Newton Booth will be the next Governor of California. Money to a large amount is subject to our order, at the rate of $1,000 to $750, that Newton Booth will be the next Governor of California. Persons meaning business can apply at the counting room of the *Enterprise*.

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONE SWELLING grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Tuk Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

MYERS' PATENT COMBINED

FLUTING AND SMOOTHING FLAT-IRON

Patented March, 1871.

THE MOST USEFUL INVENTION OF THE AGE!

THE ONLY PATENT FLUTING AND SMOOTHING Iron ever offered to the public, and pronounced by the Press perfection itself.

Adopted by all Housekeepers, on its own merits, as the Cheapest and most Perfect household article got devised.

Advantages over all others—CHEAPNESS SIMPLICITY! DURABILITY! Requires no labor to adjust it for Fluting or Ruffling, as is the case with expensive crank machines; the Iron heated in the ordinary manner for plain smoothing. When desiring to FLUTE or RUFFLE, draw back the Latch and it is ready for its work; this simple movement is all that is required. Its entire simplicity is one of its many merits.

It will not injure the finest fabric. It will not rust or destroy your clothes. It is a great saver of Time and Money. It is the only Iron with a "Rolling Motion." Its Fluting surfaces are of Polished Brass. No home can afford to be without one.

MYERS' COMBINED FLUTING AND SMOOTHING FLAT-IRONS have earned for themselves a popularity which has never been attained by any Fluting Machine. People go into ecstacies over the results accomplished by our Irons, and the longer they are used the more highly do they value them, and no wonder, when we consider that our Combined Fluting and Smoothing Flat-Irons, which are no trouble whatever to use, and which do plain ironing as well as Fluting and Bluffing, costs only the very small sum of $3 75 each.

Those Irons are for sale only by our Canvassing Agents.

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT,

OREGON & CALIFORNIA R. R. CO.

AND

European and Oregon Land Co.,

PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a claim in the form prescribed, to-wit:

Pre-emption. date, No. ——.

To the Land Agent of the European and Oregon Land Company:

Sir: You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the practice of settling upon and improving any of the lands of the European and Oregon Land Company, before the same are offered for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, which shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

(Name of applicant.)

(Postoffice address.)

When the application is received, a certificate, signed by the Agent, subscribing the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, No. ——.

This is to certify that of county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, (which is to be made without reference to improvements), when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed)

—— Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—the fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent per annum, principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Blank forms of application furnished upon request.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James B. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: "I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.
WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 90 cents per gallon in favor of the former.

CHANGE OF PROPRIETORSHIP.

H. H. PEARSON,

Late of the Rues House.

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well-known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he tends to make large reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodation. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The House will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August 1st.

WEDNESDAY MORNING, AUGUST 16,

CITY.

A LETTER OF INQUIRIES.—Mr. O. S. B. of this city has just handed us a letter addressed to him. It bears date of July 26th, and is written from Buffalo, New York. The writer is a "practical machinist," is desirous of changing his residence, and propounds the following questions:

Are there any machine shops of any kind in Portland? Should I stand a chance of securing a situation? What wages do they pay? What rent should I have to pay? What is the cost of building lots in the business and residence portions of the city? What is the cost of erecting a house in comparison with it here? Is Portland improving at all? What is the climate of Oregon? Is the soil productive, and is it a good fruit growing State? Has the Northern Pacific Railroad commenced yet in Oregon, or will it commence at Puget Sound? Is there likely to be a city at Puget Sound? What is the price of timber and pine lands, and what does it cost to get out the timber per thousand? Are there any saw mills in the vicinity, and is the business a good one? Is there anyone in Portland carrying on a machine and locksmithing business, or who repairs sewing machines? What rate of interest does borrowed money command?

These are but a few of the leading questions asked. They indicate an almost unparalleled state of ignorance which ought to be remedied. If this individual seeking for information consults large cities, we must be considered East, as a population not scarcely civilized and but removed from barbarians. Let those who are competent, and have the time and patience answer those queries, send this energetic man a package of statistical pamphlets issued by the Labor Exchange, and such other documents of information as will enlighten his ignorance, resolve his doubts, and clear away all the mists and shadows about the progress, improvement and stability of Portland. Who will perform the kind office?

A CONTESTED FARMER.—Some months ago a Scotchman arrived here accompanied by his family—a large and prosperous one, by the way. He came from Aberdeenshire, Scotland, and had been induced to emigrate by means of some highly published letters which reached him, containing glowing accounts of Oregon, its climate, productions, fertile soil, broad acres, &c. Well, the gentleman disposed of his effects and started for this far-off region. In due course of time he reached this city. After casting about a few days among the different real estate offices, he concluded to settle in Yamhill county—the county which has produced so many eminent Oregonians. He purchased a good farm near Dayton, for which he paid the sum of $6,000.

A gentleman just from that locality states that the old Scotchman is one of the happiest of fellows he ever saw. He found him and his robust boys in the midst of their harvest. The crop being purchased with the farm. The gentleman has been frequently offered one bushel for his entire crop, but steadfastly refuses to part with it. He confidently expects to realize about $1,000 on his wheat this season. It is more than probable that he will not be disappointed.

This Scotchman expresses the most unqualified satisfaction at his good bargain, and has written back to his remaining brother in Scotland to come without delay to this "promise land." It is not difficult to account for the satisfaction of our Scotch friend, when we learn that for forty and thirty years he was a tenant in Aberdeenshire under the Earl of Fife, and that he never owned a square foot of land in his life before he came to Oregon. Now, at a ripe old age, he enjoys the possession of 320 broad acres of rich, fruitful, Oregon land. He stated to our informant that he would not exchange his farm for $12,000—in fact he said for it. The name of this contented old Scotch farmer is David Mitchell.

POLICE COMMISSIONERS.—The regular meeting of the Board of Police Commissioners was held last evening at their room. Present—Messrs. Hallock and Burke. Minutes of previous meeting read and adopted. The bill of J. B. Stevens, Chief of Police, for one-third of the State taxes for the months of June and July, amounting to $56 53, was allowed and approved. There being no more business to transact the Board adjourned.

REAL ESTATE SALES.—Attention is called to the sale of desirable and valuable real estate by that true knight of the hammer A. B. Richardson, at his salesroom to-day at 10 A. M. Richardson will dispose of, to the highest bidder, the following property: Lots 1 and 2 in block 322, corner of Morrison and Thirteenth, and lots 3 and 4 in block 322, situated on Yamhill and Thirteenth streets, title perfect.

NEW SAWMILL.—The frame of the new steam sawmill, standing on the eastern bank of the river, opposite the foot of Salmon street, has been erected on the piles, driven some weeks ago. The mill is owned by three gentlemen from Clarkston. It is the intention to have the mill in successful operation by the commencement of the rains.

AGROUND.—At latest accounts the *Dora* was still aground at the mouth of the Walla Walla river. *Josie McNear* went down yesterday to her assistance, another load of iron. It is probable that the *Dora*

Now, at a ripe old age, he exults in the possession of 320 broad acres of beautiful, fertile Oregon land. He stated to our informant that he would not exchange his farm for $12,000—double what he paid for it. The name of this contented old Scotch farmer is David Mitchell.

POLICE COMMISSIONERS.—The regular meeting of the Board of Police Commissioners was held last evening at their room. Present—Messrs. Hallock and Burns. Minutes of previous meeting read and adopted. The bill of J. H. Lappeus, Chief of Police, for one-third of fees in State cases for the months of June and July, amounting to $56 53, was allowed and approved. There being no more business to transact the Board adjourned.

REAL ESTATE SALES.—Attention is called to the sale of desirable and valuable real estate by that true knight of the hammer A. B. Richardson, at his salesroom to-day at 10 A. M. Mr. Richardson will dispose of, to the highest bidder, the following property: Lots 1 and 2 in block 322, corner of Morrison and Thirteenth streets; lots 3 and 4 in block 322, situated on Yamhill and Thirteenth streets, title perfect.

NEW SAWMILL.—The frame of the proposed steam sawmill, standing on the eastern bank of the river, opposite the foot of Salmon street, has been erected on the piles, driven some weeks ago. The mill is owned by three gentlemen from Dayton. It is the intention to have the mill in successful operation by the commencement of the fall rains.

AGROUND.—At latest accounts the *Dosenby* was still aground at the mouth of the Wallamet. The *Josie McNear* went down yesterday to bring up another load of iron. It is probable that the *Dosenby* will be enabled, when lightened by another load, to reach this port.

QUIET.—Since the removal of the vagrant siwashes from the city limits, by order of Superintendent Meacham, a serenity has reigned supreme in the lower portion of Portland, which once was the turbulent theater of their drunken carousals and midnight revels.

FOR A NEW HOTEL.—The old Court House building at the corner of Front and Salmon streets, is being overhauled and refitted with a view to convert it into a large hotel. A large addition is being made to the rear of the old building.

REMOVING.—The lot, at the corner of Oak and Second streets, on which formerly stood Trinity Church, has been sold to Chinamen, and will constitute the site for a palace Joss. The church building is being removed.

ACKNOWLEDGED.—We acknowledge the receipt of complimentary tickets to attend the Columbia City excursion announced to come off on Sunday, 20th inst., given under the auspices of the Neptune Rowing Club.

MAKING EFFORTS.—We learn that the members of the Baptist Society of the Dalles are making creditable efforts to erect a church at that place. The enterprize is meeting with flattering success.

AWAITING A RISE.—Large quantities of freight—principally flour—is lying on the wharf at Oregon City. Parties are awaiting a rise in the price of this article before a shipment.

CATTLE.—A drove of young cattle passed through the city yesterday. They were designed to supply the meat markets of this city. They were in fine condition.

RECOVERED.—Mr. E. Carey, who was considerably injured some days ago by a runaway team, on Front street, is so far recovered as to be able to appear on the streets.

NUMBER OF PATIENTS.—One hundred and fifty-four patients are confined at the Oregon Insane Asylum. Of this number, thirty-nine are females.

FINE MELONS.—The *Oneonta* brought down last evening a very fine lot of watermelons. They were raised in the vicinity of the Dalles.

WILL SAIL.—The steamship *Oriflamme* will sail from this port for San Francisco on Thursday evening, 17th inst., at 8 o'clock P. M.

REACHED SAN FRANCISCO.—The opposition steam propeller *Constantine*, arrived at San Francisco on Monday, from this port.

THE friends of Isaiah Graham have completed the monument around his grave according to the request of his widow.

ON THE WAY.—Trinity church is on its way up Oak street to some locality near the suburbs of the city.

NO BAR OFF.—When the *Oriflamme* crossed the Columbia river bar no vessel was seen standing off.

DISPOSED OF.—Five cases of drunks and "disorderlies" were disposed of yesterday morning.

DUE.—The ship *Hattie C. Besse* is reported due here from Hongkong.

THE PRIZE ESSAY.

As our readers will remember, the "State Board of Real Estate Agents," at its meeting some months ago—on the 15th of April—offered a prize of $300 for the best written essay on Oregon; its advantages as an agricultural and commercial State; the information presented to capitalists, emigrants, etc. The essay was not to exceed one hundred pages printed matter—the size of the pamphlet published by the Labor Exchange. The committee appointed to examine the essays offered in competition, and pass upon the merits and decide which was entitled to the prize, consist of the following named gentlemen: J. C. Ainsworth; Esq., W. S. Ladd, Esq., Hon. M. P. Deady, Dr. W. H. Watkins, L. White, Esq., and Gen. E. R. S. Canby. The prepared manuscript was to be handed into the committee for examination within sixty days from the time the prize was offered, and all communications concerning the essays from persons competing for the prize were to be addressed to C. B. Ferry, Secretary of the Board of Real Estate Agents.

Stimulated by a desire to surpass any former attempt at an essay on the great natural advantages of Oregon, a number of writers contributed their best efforts towards this object; and quite a number of articles were handed to the committee to await the result of a close and impartial examination. Among these several estimates all were rejected but five of the best productions. After a very careful investigation as to the respective merits of the remaining five essays, three more were discarded, and two competitors for the prize occupied the field alone. The merits of these two essays were so nearly balanced that the committee were unable to decide, and accordingly have submitted the following proposition to the writers of the rival articles:

The undersigned, your Committee, to whom was referred the essays written for the $500 prize offered by the "Board of Real Estate Agents" on the "Resources and Advantages of Oregon," report that, of the five essays submitted to them, the ones written by Mrs. A. J. Duniway and Hon. J. Quinn Thornton, respectively, are in all respects superior to the other three essays offered; and as to these two, they have different merits and faults, but upon the whole are so nearly equal that the Committee is unable to say that either is absolutely better than the other, and therefore recommend that a moiety of the prize be awarded to the author of each.

Acceptance of the Award.

PORTLAND, August 9, 1871.

To C. B. Ferry, Esq., Secretary of the "Board of Real Estate Agents":

DEAR SIR.—The undersigned having read and considered the decision of the Committee to whom the Board you represent referred the first essays on the resources and advantages of Oregon, submitted in competition for the $300 prize offered for "the best essay," consent to the award as made.

We are respectfully, &c.,
J. QUINN THORNTON,
MRS. A. J. DUNIWAY.

PERSONAL.

B. B. Taylor, a Democratic newspaper man of recognized ability, and somewhat widely known, arrived on the last trip of the *Oriflamme*. He brings his family with him, and comes among us to remain permanently. Mr. Taylor was formerly connected with the Missouri *Republican*, the Quincy *Herald* and other leading Democratic journals of the West. Madison rumor says that he is to become the new editor of the *Herald*.

Mrs. L. P. Beatty, an actress of some note, and wife of Mr. Beatty who died some months since at Olympia, has arrived in this city. We learn that her numerous friends here propose to tender her a benefit soon. Mrs. B. is an actress of considerable merit, and this offer comes most opportune, as she has lately been deprived of her husband and her circumstances are such as to require assistance. We hope our citizens will extend a liberal share of sympathy and patronage.

T. B. Handley, editor and publisher of the *West Side*, called at this office yesterday. He has just returned from the Warm Springs Reservation, having completed a surveying contract for the Government. Everything is reported quiet and prosperous in that region.

Surveyor General Wm. H. O'Dell, of Eugene City, is now in the city, and gave us a call yesterday.

Ex-Senator George H. Williams, just from Washington City, also gave us a call.

DEEDS FILED FOR RECORD.

TUESDAY, August 15, 1871.

John Wickham to George B. Cook and W. H. Andrus, lots 7 and 8, block 251—consideration, $3,100.

W. W. Chapman to E. J. Northrup, lots 1, 2, 7 and 8, block 206—consideration, $6 50.

Isaac Barnes to Jacob Fleischner, a piece of land situated in section 6, township 1 south, range 1 east; also a piece of land situated in section 1, township 1 south, range 1 west, containing 12 48 80 acres—consideration, $300 31.

J. H. Reed to G. D. Cook and W. H. Andrus, lots 7 and 8, block 251—consideration, $1.

THE GRAND POW-WOW.—It appears that the grand Indian pow-wow which has been in session at the Umatilla Reservation for the last six days, or more, has resulted in nothing. Superintendent Meacham, Senator Corbett and Mr. Brunck, returned to the city last evening by the Dalles boat. They report that nothing satisfactory could be arrived at with these "noble red men of the forests," as poets and novelists call them. The arguments made by Superintendent Meacham, Corbett and Brunck, utterly failed to remove the objections interposed at every turn by these Indians. Persuasions and promises were alike disregarded, and so, after six days laborious haranguing, the entire project was abandoned.

The Indians were invincible to the last in the resolution not to give up their lands. Whenever the Commissioners proposed the removal to lands which they had never before occupied, they were courteously answered by the chiefs, "We have been all over those lands you propose to give us. The land is too cold for our tender children; we cannot live there, for there is no game to hunt, and the ground is too poor to raise our corn; there is no grass for our ponies to eat—nothing but sage brush." These, and other objections were presented to the Commissioners at every turn, and was the most effective logic that "Lo" could summon. The Council therefore proved a fruitless effort to induce the Indians to sell or give up their land, and broke up to the dissatisfaction of all parties—resulting in nothing definite as to what future disposition is to be made of those remnants of tribes of the land occupied by them.

THE CONGREGATIONAL CHURCH.—The new Congregational Church edifice, standing at the corner of Second and Jefferson street, was erected at a total cost of nearly $20,000. This church is one of the finest structures, dedicated to the service of God, in this city. It is an ornament to Portland, and stands as a monument of the enterprise and persevering energy of the Society at whose expense, and under whose auspices it was erected. We learn that this fine church is entirely free from debt; that every dollar expended in its erection and furnishing has been liquidated.

ORGANIZATION OF A TURN VEREIN SOCIETY.—Pursuant to a notice, quite a number of our German citizens met last evening at Mr. LeGrande's rooms and there took preparatory steps towards the organization of a new German Turn Verein Society. After transacting such business, the meeting, on motion, adjourned to meet again on Tuesday, August 22d, at 8:30 P. M., at the German schoolhouse, corner Ninth and Morrison streets.

MAN DROWNED.—We learn by a dispatch that a man was drowned at Oregon City yesterday. He was employed at Elliott's sawmill at Canemah, and while removing some logs in the boom slipped off, fell between the logs, and was drowned before assistance could reach him. Deceased was aged about 35 years, and his name was Charles Kempton. No further particulars are given.

LAURA DEFORCE GORDON.—The female lecturer, politician and editress, delivered a lecture a few days since at Olympia. Her subject was, "Our next great Political Problem." The *Daily Tribune* speaks in complimentary terms of that lady, and says that she appears to be a "highly cultivated and attractive lecturer."

KILLED.—A Chinese laborer was killed on Monday evening by the caving of a bank at the corner of Hall and Second streets, while engaged at work on the street improvement.

BUSINESS NOTICES.

The following were the arrivals of tourists at the Umatilla House, Dalles City, for the past week: Lieut. N. O'Conner, U. S. A.; Col. L. H. Ludington, U. S. A.; Phil. Houghton, San Francisco; H. L. Cowley and wife, N. Y.; Dr. W. L. Harris, N. Y.; Miss M. Morris, N. Y.; Miss L. Jones, N. Y.; E. W. Mussey and wife, Boston; A. B. Carlton, N. Y.; Mrs. D. Carlton, N. Y.; Rear Admiral Winslow, U. S. N.; Mrs. Winslow, Miss Winslow, C. R. Winslow, H. Glass, U. S. N.; F. C. Codley, U. S. N.; R. M. Cutts, U. S. N.; W. N. McKerson, U. S. N.; O. Parsons, U. S. N.; H. W. Corbett; J. Ward; John Hutchman, Kansas; Wm. F. Loyd, Misc.; Prof. Joseph Le Conte, Oakland University, Cal.; Dan'l. O'Connell, S. F.; B. H. Hephan, S. F.; Hugh McCreom, S. F.; N. Tabor, S. F.; A. B. Meacham, Indian Superintendent, Oregon.

REAL ESTATE.—At auction to-day at 10 o'clock will be sold by A. B. Richardson two quarter blocks. These are so situated as to be amongst the best in the city for residence purpose, or as an investment, the one having a northeast and the other a southeast aspect. About twelve minutes' walk west of the Postoffice, commanding a fine view of the river. Grading light. Terms easy. This is a chance for securing such property not likely to occur again.

REMOVAL.—A. B. Elfelt & Co., San Francisco, as will be seen by advertisement in another column, have removed from their old stand on Battery to the store formerly occupied by Wm. Meyer & Co., Nos. 108 and 110 Sansome street. They offer a full stock of goods.

AMUSEMENTS.

LECTURE.—The world renowned lecturer, Mr. B. F. Underwood, of Boston, will deliver a course of lectures at the Philharmonic Hall, commencing Thursday evening next, at 8 o'clock, with the following subject: "The Influence of Christianity on Civilization." Admission free.

NO PERFORMANCE—BENEFIT.—There will be no performance at Odd Fine Theater either this evening or to-morrow evening. On Friday evening will be tendered a grand complimentary benefit to La Petite Marion. The brief season will close with a farewell performance on Saturday afternoon and evening. We learn that the troupe will start for Salem on the first of next week, to inaugurate a short season there.

THEATRICAL.—The Pixley Troupe, consisting of the Pixley Sisters, Messrs. Elferton, Campbell, and Clinton, are en route for this city, and may be expected to arrive about Saturday evening.

NEW YORK CIRCUS.—This circus is now performing in San Francisco to full houses. So we learn from an exchange.

ILL.—Samuel Wilcox, one of the conductors on the O. & C. railroad, is lying dangerously ill in this city.

CONCERT SALOON.—A concert saloon will soon be opened on First street, a few doors above the Postoffice.

TEMPERATURE.—The thermometer stood yesterday afternoon 85° in the shade.

SCHOOL OPENING.—Miss Mary Stanmore's Private School, corner Third and Main streets, will open Monday, 21st inst. Pupils will be taken during the term.

TURN VEREIN.—There will be a meeting of such of our German citizens as are interested in the organization of the above society at the German School House, Tuesday, Aug. 22d, at 8:30 P. M.

Help for the Nervous.

Where is it to be found? cries the trembling victim of nervous debility. Not in the tavern dram: that fires up the circulation for a moment, and is succeeded by a collapse. Not in purgative pills or a Lenten diet, but in an invigorant and restorative in which the tonic elements are united with gentle aperient and alterative properties. When Hostetter's Stomach Bitters was introduced nearly twenty years ago, this important object was first attained. This peaceful and active vegetable specific is as justly celebrated for its cures of nervous diseases, as for the absolute certainty with which it relieves dyspepsia and biliousness. The hot weather toward the close of summer generally aggravates diseases of a nervous type, creating a degree of feebleness which is beyond measure distressing. Under such circumstances only the bodily energies with a course of Hostetter's Stomach Bitters. Of all tonics, it is the most satisfactory in its operations, and the least exciting. It braces the nerves up to their natural tension, but not beyond it, so there is no reaction. It has other properties, however, than those of a nervine and as a blood depurant and moderate aperient, is superior to any other medicine of the day.

Fraud, however, is on the alert. The celebrity of the original medicine has given rise to scores of counterfeits and imitations. Examine the label, and the *fac simile* of the signature of the firm; see that the spelling is all correct; and thus make sure of the genuineness of the article you buy. P. S.—Hostetter's Bitters are never sold in kegs or barrels, but in bottles only.

REV. C. T. MILLS AND WIFE, FOR the past six years Principals of the Young Ladies' Seminary at Benicia, are happy to announce to their patrons and friends, that the next term of their well known Institution, will open
Wednesday, August 2, 1871.
In their New, Commodious and Beautiful Building, just completed at SEMINARY PARK, BROOKLYN.
As most of the able and experienced corps of Teachers, with valuable accessions, as well as the fine classes of pupils now pursuing their studies remote with them, the School remains essentially unchanged with greatly increased facilities for physical comfort and intellectual culture without additional expense. Mr. and Mrs. Mills believe they can accomplish much more for their pupils in the future than they have been able to do in the past, and that this Institution offers unrivalled advantages for a thorough and finished education.

Ku Klux Oath.

A correspondent of the Philadelphia *Press* obtained recently the records of the Spartanburg (South Carolina) "Council of Safety," among which was the following Ku Klux oath, which is administered to all members of the order

You solemnly swear, in the presence of Almighty God, that you will never reveal the name of the person who initiated you, and that you will never reveal what is now about to come to your knowledge and that you are not now a member of the Red String Order, Union League, Heroes of America, Grand Army of the Republic, or any other organization whose command intention is to destroy the rights of the South, or of the States or of the people, or to elevate the negro to a political equality, with yourself, and that you are opposed to all such principles, so help you God

You further swear, before Almighty God, that you will be true to the principles of this brotherhood and the members thereof, and that you will never reveal any of the secrets, orders, acts, or edicts of this brotherhood, and that you will never make known to any person not a known member of this brotherhood, that you are a member yourself, or who are members, and that you will never assist in initiating, or allow to be initiated if you can prevent it, any one belonging to the Red String Order, Union League, Heroes of America, Grand Army of the Republic, or any one holding radical views or opinions, and should any member of this brotherhood, or their families be in danger, you will inform them of their danger, and, if necessary, you will go to their assistance, and that you will oppose all radicals and negroes in all of their political designs, and that should any radical or negro impose on, abuse, or injure any member of this brotherhood you will assist in punishing him in any manner the camp may direct

You further swear that you will obey all calls and summonses of the chief of your camp or brotherhood, should it be in your power so to do.

Given upon this your obligations that you will never give the word of distress unless you are in great need of assistance, and should you hear it given by any brother you will go to his or their assistance, and should any member reveal any of the secrets, acts, orders, or edicts of the brotherhood, you will assist in punishing him in any way the camp may direct or approve of. So help you God

Currency in Portland, buying 88¾c. selling, 90c

The steamers *John L. Stephens* and *Constantine* were informed will sail from San Francisco to-morrow Wednesday, for this city. The steamer *Orizaba* sails Thursday for San Francisco and all coast landings.

A. B. Richardson & Co. offer, to-morrow, Wednesday, at their salesroom, real estate and groceries at auction.

By private letter dated San Francisco we learn that passage is dull. That the *Sea Hall* was chartered to load wheat for Liverpool at $2, which may be considered the established rates for chartering to Liverpool

There are three vessels in port now—the barks *Stoddard*, *Garibaldi* and *Dorothy*—either or all of which can be chartered to load Cali'ornia or other cargo. The rates asked by farmers for wheat, and by ship owners for chartering, would indicate the possibility of any vessels being chartered to load wheat until opportunities are made by owners of vessels for charter, and also by farmers for price of wheat.

Farmers are holding wheat, as we are informed, to a great extent, in Albany, at $1 per bushel, to show its improvement for shipment to pay so much as that for wheat as high up as Albany, we adduce the following

Wheat in Albany, per bushel $1 00
Against Commission 05
Bags 07
Freight to Portland 12
Cost delivered at Portland $1 24
Freight and other expenses to San Francisco 12

Cost per bushel delivered in San Francisco.... $1 30

Cost per pound, pounds, delivered there $2 27. This does not include expenses after arrival at San Francisco, which will amount to from 8 to 10 cents additional per 100 lbs. The highest quotations in San Francisco have been lately was $2 25 per 100 lbs or cental.

By mail advices from the East we are in receipt of the report of President Grant permitting the sale of distilled spirits seized in Alaska Territory for violation of Executive order of February 4th, 1870, under such regulations as the Secretary of the Treasury may in each case prescribe. The decision of the Treasury instructs the Collector of Customs for the District of Alaska, to dispose of no distilled spirits seized, where the amount is under $500 value before first reporting the case to the Department for instructions.

The following is a recapitulation of the public debt of the United States, August 1st, 1871, which speaks well, but we will have more to say on this subject soon which, for want of space we can not incorporate in this

Merchandise Reports

FLOUR—We are informed the Standard Mills will commence running the latter part of this week. Several of the mills will commence next week and the following. We make rates to-day in lots at $5 for extra and $5@5 50 superfine

BRAN—We hear sales to-day $25 per ton

EGGS—Are not coming in free, considering the steamer sailings over. We quote 30c

BUTTER—Market well stocked. We quote fair to choice, 20@25c

FRUIT—Arrivals are free both from the interior and California. The peach crop of the Cascades is reported injured by frost. Prices for fresh are well sustained for choice, but for inferior the market is glutted and prices are nominal

HAY—There is a better feeling in the market and prices in consequence have advanced. We quote fair to choice, 18@20c.

WHEAT—Conflicting reports continue to reach us of prices paid in the interior, but as yet we are unable to verify as of reliable shipments. Whether millers will or can pay present prices contended for by some farmers, unless the price of flour advances or wheat in England advances under the unfavorable crop advices. Prices here are $1 28@1 30 per bushel

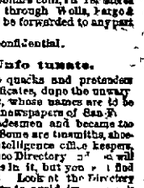
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases such as Bonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

DR GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him

The Doctor has spared no time nor money in seeking out new remedies and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering on a miserable existence from the effects of secretive indulgences, of even whom have died into the asylum! Look at their pallid, sunken and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life If this horrid situation thus engenders after until death closes the scene Let parents, guardians, friends, attend to those who are suffering with any of these horrible diseases before they make it so late that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his study for years and who for certain to cure the most inveterate cases will benefit by your application. Many of these quack nostrums are not only injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who insert their cards publishing their skill in curing all diseases in the newspapers and by circulars distributed about the streets, thereby deceiving the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse This solitary vice, or deprave desire and indulgence, is followed by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of horrible symptoms, unless combated by the use of rational measures, viz Sallow countenance, darkness under the eyes, pain in the head, ringing in the ears, nerves in the trembling of the hands, palpitation of the heart, indolence, aversion to study, loss of memory, bashfulness, timidity, nervousness, blushes at trifles, dimness of sight, frightful dreams, confused ideas, dissipated intellect, loss of confidence, diffidence in speaking strangers a dislike to form new acquaintances, a disposition to shun society, loss of memory, both flushes and pallid countenance, blotches on the face, furred tongue, fetid breath, coughs, consumption night sweats, monomania and frequent insanity It is not to be denied, should apply immediately, either in person or by letter, and have the affected by his own hand or entire cure of treating this disease, which never fails of affecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he warrants of his complaints by either of the San Francisco papers

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of the following complaints, should not neglect the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument, binding himself to effect a cure and to return money if cure is not made.

CURED AT HOME.

Persons at a distance can be CURED AT HOME, by addressing a letter to Dr Gibbon, stating cases symptoms length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity to any person. Terms moderate, by full and plain directions. By inclosing Ten Dollars coin, in a registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates, dupe the unwary Some of the advertised doctors, whose names are to be found in the daily and weekly newspapers in San Francisco and other places, are tradesmen and became too lazy too work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over San Francisco Directory for 1867 and not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make inquiry. It will cost no thing and may save you many regrets for no advertising physicians in regular cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus cities, certificates, pretended patents of letters, etc. Dr Gibbon will ex lain persons who may call at his office or by his ability to treat diseases that he proposes to cure

Address DR J F GIBBON, 623 Kearney street, corner Commercial, San Francisco Post Office Box 1,497.

REMEMBER POST BOX 1,967 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR GIBBON that they read his advertisement in the *Daily Oregonian*
